

Perancangan Website Reservasi Tiket Kereta

Fachry Syah Alam 202310065

Subjek Penelitian

Subjek yang saya gunakan dalam penelitian ini adalah enam orang penumpang kereta stasiun Bogor – Sukabumi. Dari data yang didapatkan, 4 dari 6 penumpang mengeluh karena mereka harus mengantri saat membeli tiket di hari biasa terlebih lagi di hari libur. Sisanya memilih untuk datang lebih awal agar tidak perlu mengantri tiket.

Proses Bisnis

- User dapat memesan tiket kereta
- User dapat melihat jadwal kereta
- User dapat membayar tiket kereta
- User dapat mencetak tiket kereta
